

Objective: Implement a simple chatbot that will guide the user through a process depending on the answer until finish the flow.

- The user answer will be open and should be categorized into the types (yellow circles) even if they are not exactly the same as the answer examples.
- The chatbot questions will be always the same (blue squares) and will depend on the user answers.

Requirements:

- It's possible to use any technology and language (GCP Dialog Flow, Rasa,...etc).
- The result should be possible to execute in local or in cloud.

Questions

ID	Text
HI_QUESTION	Hi! Are you familiar with the famous "imposter syndrome"?
HI_QUESTION_YES	Amazing! Take a look on this video to make sure we are in the same page https://www.youtube.com/watch?v=ZQUxL4Jm1Lo
HI_QUESTION_NO	Dont worry! Here's a 1 minute video I wish everyone would watch https://www.youtube.com/watch?v=ZQUxL4Jm1Lo
THOUGHTS	What are your thoughts? Did you learn anything new? Or maybe you recognised yourself?
OTHER_PEOPLE	Do you know anyone who is excellent but doubts him or herself?
DESCRIBE_SITUATION	Can you describe a situation where you felt like an imposter or you didn't deserve the success or that you would soon screw up because it was just luck that brought you there?
EINSTEIN-IMPOSTER	We look up to people like Einstein. What reflections do you get when you know that the GREAT Einstein had imposter syndrome?

Answers

ID	Possible answers
YES	Yes, Of course, I've hear about it, I've read, I made some research
NO	No, Never, I've heard about it, First time I heard, Not sure
LEARN	I did not know that..., I've learned a lot, This information is new for me
RECOGNISED	I recognised myself in those situations, That happened to me before, One time I had this feeling
GENERAL	All the others answer that will not match with LEARN or RECOGNISED
